

## Waste Site Reclassification Form

<b>Date Submitted:</b> 4/26/2004	<b>Operable Unit(s):</b> 200-SW-1	<b>Control Number:</b> 2004-052
<b>Originator:</b> C. R. Webb	<b>Waste Site ID:</b> 600-236	
<b>Phone:</b> 373-5573	<b>Type of Reclassification Action:</b> Rejected: <input checked="" type="radio"/> No Action: <input type="radio"/> Interim Closed Out: <input type="radio"/> <del>Closed Out:</del> <input checked="" type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

**Description of current waste site condition:**

The site was a treatment facility for petroleum contaminated soil. Based upon analytical results of twelve soil samples, the cell meets the requirements for closure under WAC 173-340, provided that Ecology concurs with the rejection of the sample analysis for soil sample 607-SOILCELL-9.

**Basis for reclassification:**

Samples indicate no hazardous contamination. In August 2004, DOE sent a letter to the Washington State Department of Ecology, stating the corrective actions associated with this site had been completed.

Ecology will close out environmental liability under WAC 173-360 by separate letter.
